

float wraps

Float wraps are unique in that they appear to be floating on the wall with the main focus on the image! Create a modern display with a Float Wrap wall collage that is ready to hang once removed from the box!

Float Wraps are created by wrapping the photographic print or canvas print around masonite to create a thin wrap. The print or is protected with a laminate and padding is added between the print and the masonite to give the front of the Float Wrap a raised, elegant look and feel. The back of the Float Wrap is complete with black paper backing and a black 3/4" thick gatorboard block that allows the Float Wrap to extend out from the wall. The back of the block also contains drilled holes for hanging.
